PRIMARY EXAMINER

DETAILED ACTION

1. Claims 1 to 17 are presented for examination. The amendment filed 6-4-2007 canceled claims 2, 4 to 5, 8 and 11 to 17.

Drawings

2. The drawings were received on 4-10-2007. These drawings are accepted.

Allowable Subject Matter

3. Claims 1, 3, 6, 9 and 10 are allowed.
4. The following is an examiner's statement of reasons for allowance: the primary reason for allowance of the claims is the inclusion of the limitation of the selection of the error correction code (ECC) check bits using an exclusive -OR function and using an exclusive-NOR function for the selection of the ECC check bits and selecting the ECC check bits from the two most significant bits and two least significant bits). The prior art made of record teaches a method for detecting transfer errors in address data; however, the prior art made of record, taken alone or in combination fails to teach or fairly suggest or render obvious the novel element of the instant invention. I.e., "the at least two data ECC check bits are selected from the group consisting of two most significant bits and two least significant bits" as recited in some of the independent

claims. The prior art made of record also fails to teach or fairly suggest that the error detection method uses an exclusive OR function and an exclusive NOR function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
